

From the desk of President...

The Federation of Hosiery Manufacturers' Associations of India (FOHMA) was established in the year 1972. Since inception, it has been relentlessly striving to ensure equitable growth and sustained development for the hosiery industry on a pan-India basis.

FOHMA operations was shifted to Kolkata in 2010 and has since been fully functional from here. Our Managing Committee have been meeting regularly to review important matters and frame the activities of the Association. The process of engagement and scaling up has had its share of challenges, but with constant efforts & determination, we have achieved significance today.

A lot has been planned for the future. And with the success of KNITCON 2015 (a Conference on advancements in Knitting, Processing and Stitching in Knitwear Industry), our confidence has been bolstered greatly. There will be several programs, activities and initiatives that will contribute significantly to knowledge sharing and development process of our hosiery industry.

The winds of change have brought about new avenues for growth & development. We must cash in on the opportunities to embark on a new journey. For those who wish to reinvent themselves, it will be a chance to reach greater levels of excellence in the days ahead.

Let us raise a toast to the success & prosperity of our hosiery industry!

All the best.
